

GENERATIVE AI SERIES: DAY 7

You've Learned the Theory, Now Lets Build!

Let's get hands-on with
some fun and easy AI
projects you can start today!

@learn.machinelearning

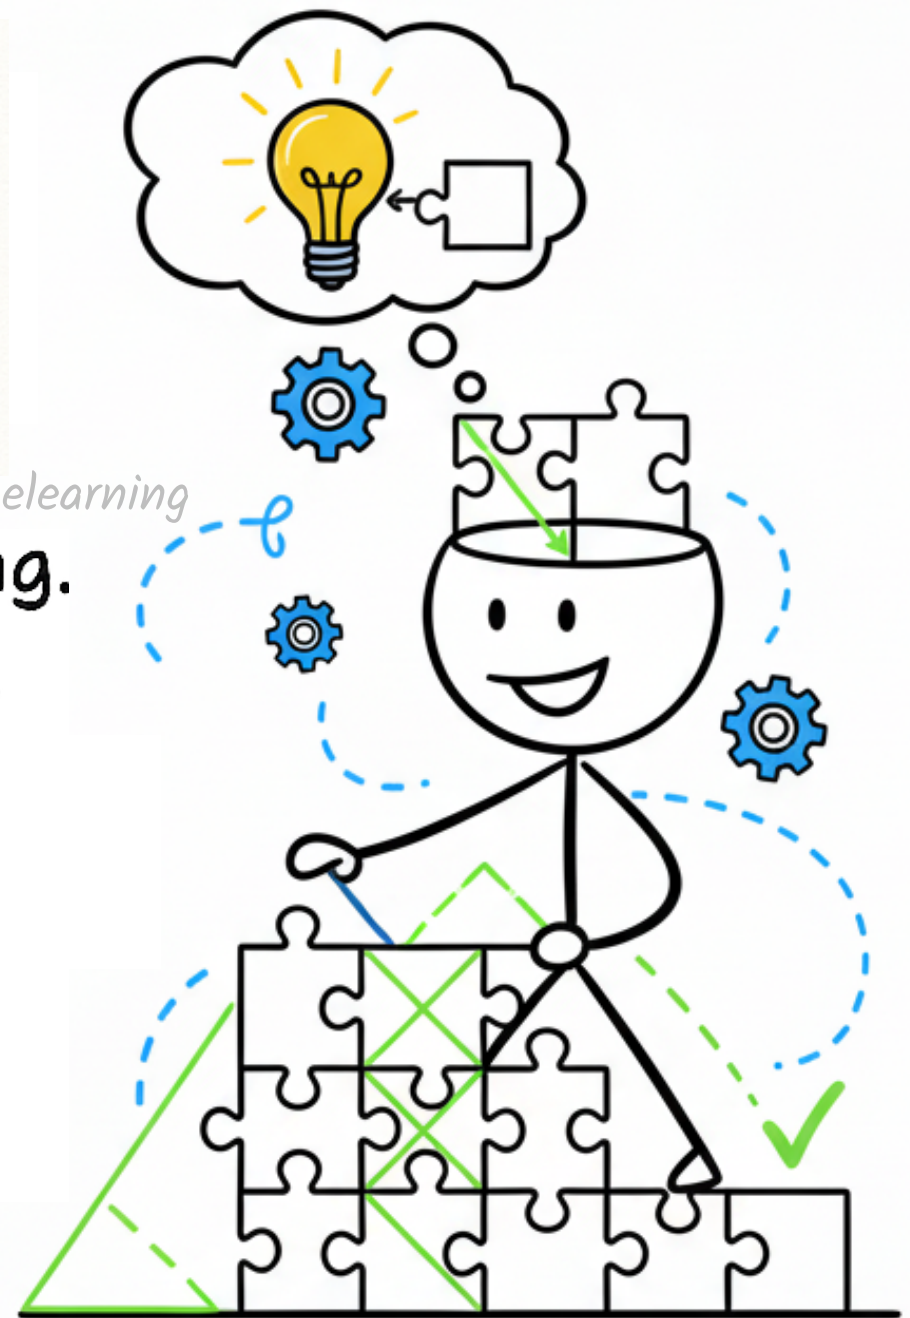

The Best Way to Learn is by **DOING!**

Reading is great, but
creating is where the
magic happens.

Projects help you:

- ✓ Solidify your understanding.
- ✓ Experiment with different AI tools.
- ✓ Discover the true creative power of AI.
- ✓ Build a cool portfolio!

Text **Project**: Create a Bedtime Story

Task:

Use a Large Language Model (LLM) (LLM) to write unique story for a child, friend, or friend, or even yourself!

Tool: ChatGPT, Google Bard, or Microsoft Copilot (all have free versions).

@learn.machinelearning

Sample Prompt:

Act as children's book author. Write a happy bedtime (about 200 words) about a brave little from Hyderabad named "Deepu" who the dark. Keep the tone gentle and reassuring.

IMAGE PROJECT: DESIGN YOUR DREAM SPACE

TASK:

Use a text-to-image model to visualize your ideal room or workspace.

TOOL: *@learn.machinelearning*

Bing Image Creator (free), Midjourney (free trial), or Stable Diffusion online

Create a photorealistic image of a cozy, modern home office. It should have a large wooden desk, a comfortable chair, big windows with a view of a rainy city, and lots of green plants. The lighting should be warm and inviting.

GENERATIVE AI SERIES: DAY 7

Utility Project: Plan Your Next Vacation

Task: Combine your prompt engineering skills to create a detailed travel itinerary.

Tool: ChatGPT, Google Bard, or Microsoft Copilot

@learn.machinelearning

Sample Prompt: "Act as an expert planner. Create a detailed 3-day weekend itinerary for a solo traveler visiting the firm. December. Focus on mix a relaxy on beach, exploring localture, and good food. Provide buget-friendly budget-fridly options for stay and food. Forme output as day-bay schedule in a table"

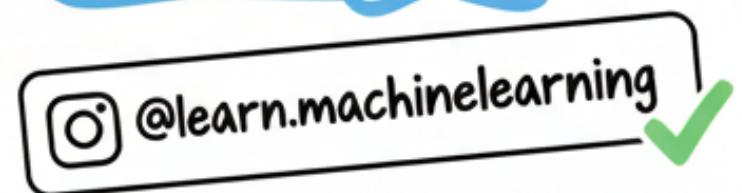

Now, It's YOUR Turn!

Challenge:

- Pick one of the projects (invent You own!).
 - Create something awesome using a GenAI tool.
 - Share your creation in your story, [tag @learn.machinelearning!](#)
- We'll feature the most creative projects! Lets see what can build!

@learn.machinelearning

Challenge Accepted?

GENERATIVE AI SERIES: DAY 7

@learn.machinelearning

Week 1
COMPLETE!
You're an
AI Explorer!

Congratulations! You've gone from the basics of AI to understanding complex models and how to use them. You now have the foundational knowledge to explore this incredible field.

This is just the beginning!

Which project are you trying first?
Let everyone know below!
